

“The biggest cause for unproductivity in leaders is not talked about, in fact it doesn’t even have a name - until now.”

## Every Leader Stumbles. The Best Know How to Recover!

Ritu G. Mehrish is a woman on a mission to humanise leadership. She provides a refreshing and unique angle in presenting the human side of leadership by talking about the challenges, dilemmas and setbacks of leaders in their leadership journey. She believes that we focus too much on making our leaders superheroes. But they are human and therefore they will fail, falter, stumble, fumble and make mistakes.

However, if we treat failures, mistakes, obstacles and dilemmas as part of our leadership journey, we can call it out faster and prevent it from perpetuating.

This early phase of being stuck, demotivated, uninspired and not being able to perform to the best of our abilities is called ‘leader’s block’ (yes, like writer’s block).

Ritu tells her story and stories of other leaders who have gone through the challenges and blocks that you are facing; to motivate, inspire, influence and to help you find a little bit of yourself in them. She creates a sense of belonging and kinship, and helps to humanize leadership.

She provides a framework and sustainable solution not only for yourself but for your teams and the organization.
